### **Reasons for Allowance**

COMES NOW the Patent Office and states at least a reason for the allowance of this Application, to wit: that the Prior Art neither teaches nor reasonably suggests the combination of method steps to make a multilayered circuit board that comprise forming a first circuit in a predetermined pattern on a first surface of a flat insulating board which has a second flat surface parallel to the first surface, embedding the first circuit in the insulating board so that the first surface has a predetermined surface flatness and a predetermined parallelism with the second flat surface, masking a portion of the first surface of the embedded first circuit so as to form a via hole, forming an insulating layer to the first flat surface embedded first circuit except for a part on which the mask is located, flattening the insulating material layer so that the flatness is parallel with respect to the second flat surface and a forming a pilot hole by removing the mask.

Furthermore the Patent Office Saith not.
